

Mag Plus

Mag Plus is made from a naturally occurring hygroscopic mineral, Magnesium chloride. Applied directly onto the surface requiring treatment. Its hygroscopic properties bind the fine, solid particles to the larger soil particles by absorbing moisture from the air providing you with the maximum dust control.

Features

- Saves money by reducing the need for watering and soil replacement
- Improves relationships with the surrounding community
- Environmentally friendly product
- Can safely be used in the most sensitive areas
- Improves the cleanness of the surrounding areas

Applications

- Horse riding arenas
- Animal pens
- Industrial plants
- Roads and parking lots

<u>Formula</u>	MgCl ₂
<u>Ingredients</u>	<u>% To total volume</u>
Magnesium Chloride	25 – 28
Calcium Chloride	4 – 5
Sodium Chloride	1.2
Potassium Chloride	.8
<u>Physical Data</u>	
Acidity/Alkalinity	Ph = 7
Melting Point	-13°F
Boiling Point	224.6°F
Specific Gravity (M2) = 1)	130@68°F
